Introduction

The P55 is a 2.25" (55cm) metal clad, monolithic, stackable panel system. P55 panels are stocked in a variety of heights and widths allowing for almost infinite configurations. Panels and stack tiles are stocked in fabric over metal (W), glass (G) and etched glass (GE). Work surfaces are straight edged with a 2.5 mm pvc edge banding and grommets. Top caps and raceway covers are powder coated aluminum. All panels come standard with a CAT6 compliant divided raceway and hangers for modular power.

In-Stock Program

All panels carried in the In-Stock program come in a three tone gray Fuchi fabric (V-310). All metal components are Light Gray (905). Panels can be re-upholstered in any of cfstinson's available vertical fabrics, or special ordered in over 60 available Fuchi fabrics.
